

# GUIA DE CONFIGURAÇÃO

INSTALAÇÃO POR PENDRIVE (USB)

## **GUIA DE INSTALAÇÃO – POR PENDRIVE (USB)**

#### 1- Visão Geral

Neste manual você aprenderá a instalar o sistema NETDEEP SECURE através de um pendrive USB.

#### 2- Preparando o disco de instalação

Para realizar os procedimentos abaixo você precisa estar com o pendrive conectado na maquina e ter a ISO (arquivo para instalação disponível em nosso site) do NETDEEP SECURE em seu computador.

1- Baixe o programa Universal USB Installer no link abaixo:

https://universal-usb-installer.br.uptodown.com/windows

2- Em seguida execute o programa e clique em "I Agree".

3- No campo "Step 1:" selecione a última opção "Try via DD (Overwrites disk)".

6- Em seguida irá exibir uma mensagem de WARNING informando que os dados do pendrive serão excluídos, caso queira prosseguir clique em "**Sim**".

| 🧑 UI       | niversal USB Installer 1.9.8.2 Setup 🛛 👋   | <    |
|------------|--|------|
| Cor<br>Ple | WARNING: Backup any data on this drive before proceeding!<br>All exisiting data (including any other volumes, partitions, and<br>associated drive letters on this drive), will be destroyed.   | ller |
|            | Universal USB Installer is ready to perform the following actions:   |      |
|            | 1.) DD copy the nds-3.3.0-install-cd.2106.i586 to (K:).  |      |
| L          | WARNING: All Data (including any other volumes, partitions,<br>and associated drive letters on this device), will be<br>irrecoverably Overwritten by this image. Its capacity may<br>appear to be zero, the same size as this image or images boot<br>partition.                             |      |
| L          | Additionally (K:) may no longer appear in Window or appear<br>as formatted. When you want to reformat, you'll need to use a<br>low level disk management tool to restore the drive to its full<br>capacity. The Format option within UUI should be able to do<br>this for you in most cases. |      |
| •          | Are you absolutely positive this Drive is your USB Device?<br>Double Check with Windows (My Computer) to make sure!  |      |
| JUING      | Click YES to perform these actions on (K:) or NO to Abort.   | ncel |
| -          | Sim Não  | -    |

7- Agora é só aguardar ele montar a ISO no pendrive:

8 - Quando ele exibir a mensagem "Copy Done, Process is Complete" clique no botão "Close".

Pronto! Agora você pode utilizar este pendrive para realizar a instalação do Netdeep Secure. Altere na BIOS do computador para realizar o boot pela porta USB.
